

Netfira Partners with Sage to Support Sage Accpac

- Streamline time-consuming ERP, inventory and accounting processes
- Manage financial accountability and compliance
- Enhance inventory-handling
- Improve order fulfillment processes
- Tie together your supply chain

Increase Productivity, Streamline Operations and Improve Visibility

Netfira is a breakthrough business-to-business (B2B) supply chain solution that streamlines the buying and selling process. It facilitates REAL-TIME, electronic transactions between trading partners, eliminates manual data entry, integrates with participants' back-office systems, and provides powerful, REAL-TIME information for buyers on inventory levels and pricing within the supply chain.

Tailor Your Business Management Solution to Fit Your Needs

Netfira's partnership with Sage opens up an extensive range of capabilities for our mutual customers, making it easier for them to manage their inventory business processes. Netfira enables Accpac users to connect with systems of all kinds to receive orders, and to locate and purchase inventory with minimal effort and paperwork. Automating these processes can save hours of labor, which leads to more profitability. Using Netfira and Sage together ensures that our software and services provide our customers with the ability to run their businesses more effectively and overcome the challenges of today's business environment.

With the Netfira and Sage partnership, our sole focus is to provide back-office system integration that produces results and contributes to your bottom line. Whether it is custom programming, optimization of an existing system, or implementation of a total system and procedures, we'll provide a complete solution for your business. You will achieve:

- End-to-end visibility
- 100% automation
- Seamless integration

Sage Accpac Leverages Netfira to Reach New Heights

Netfira helps Sage Accpac accomplish even more for your business by leveraging the strengths of the Accpac product line, which includes efficient order processing, multi-location inventory, global currency and languages, customization for specific business processes, and the flexibility of user interface and databases. This enables Netfira to extend the reach of Accpac into other systems. Two-way integration of the order processing and REAL-TIME visibility of inventory from suppliers gives Accpac users a competitive advantage, increases accuracy and reduces costs. If you have the need to communicate with smaller systems or proprietary systems, Netfira can also interface with these systems, eliminating faxed receipt of orders or manual data entry of orders into your system. Imagine some of your most painful and labor intensive processes being eliminated by adding Netfira to your Sage Accpac system.

Netfira helps Accpac accomplish tasks that are nearly impossible today, such as:

- Look up and down the supply chain to locate inventory quickly and at the best possible costs
- See pictures and PDF documents of stock items in REAL-TIME when purchasing—no additional cost, no additional software
- Minimize the paperwork of processing an order, eliminate manual data entry of orders
- Determine REAL-TIME inventory, and if desired, create a web store presence
- eCommerce capabilities
- REAL-TIME buyer and seller connections and transactions that are only charged when a transaction occurs
- Low cost of installation and easy integration into your Accpac system and into other systems

Netfira Delivers a Reliable and Affordable Solution

Across industries, companies of all sizes are embracing (B2B) solutions to:

- Improve productivity by transforming the way dealers and distributors communicate
- Integrate and streamline ERP, inventory and accounting systems, and order processing procedures
- Deliver peer-to-peer transactions with security and reliability

Connecting Buyers and Sellers in Real-Time

Netfira is a breakthrough business-to-business supply chain solution that streamlines the buying and selling process. Netfira facilitates REAL-TIME, electronic transactions between trading partners, eliminates manual data entry and integrates with sellers' back-office systems to provide buyers with powerful, REAL-TIME information about inventory levels and pricing within their supply chain.

SAP, the SAP logo, and the SAP partner logo are trademarks or registered trademarks of SAP AG in Germany and in several other countries all over the world.

©Copyright 2011 Netfira Inc.

Our market leading solution redefines what traditional eCommerce systems have to offer by connecting buyers and sellers in REAL-TIME, securely by providing:

- Exceptional ease of installation, management and use
- Simple inventory lookup with fully-integrated and automated transactions for buyers and sellers
- Lower cost of ownership

With Netfira, the buyers' and sellers' back-office systems are always in sync. Buyers can automatically connect to authorized sellers and search inventory at no cost. This streamlines processes and automates integration of sales orders, invoices, and purchase orders into distributors' and dealers' existing systems powered by Sage Accpac. When a purchase is made, buyers and sellers see purchase orders and sales orders respectively.
