Netfira and Sage Peachtree Provide a Complete eCommerce Solution

Netfira is a breakthrough business-to-business (B2B) supply chain solution that streamlines the buying and selling process. It facilitates REAL-TIME, electronic transactions between trading partners, eliminates manual data entry, integrates with participants' back-office systems and provides powerful, REAL-TIME information for buyers on inventory levels and pricing within the supply chain.

Give Your Business an Edge with Greater Visibility, Enhanced Analytics and Streamlined Processes.

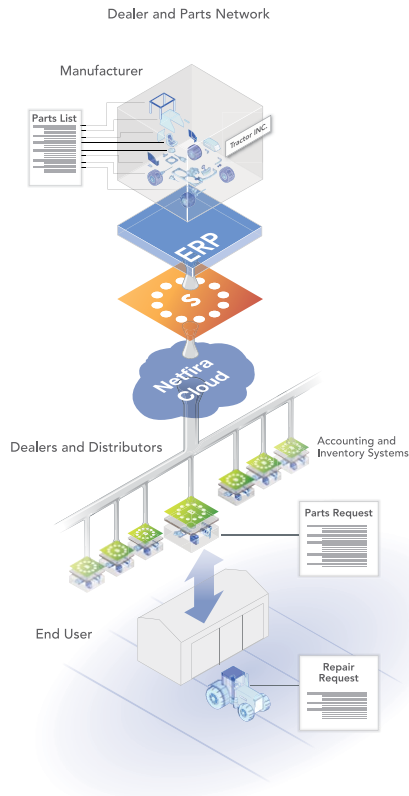

Netfira's partnership with Peachtree opens up an extensive range of functionality for customers, making it easier for them to make informed decisions and streamline their business processes. With more flexible tools and personalized features than before, Sage Peachtree enables you enterprise resource planning (ERP), inventory and accounting tasks and Netfira extends Peachtree's capabilities by adding seamless eCommerce capabilities, including REAL-TIME inventory stock reporting and automatic invoice generation. Managing inventory becomes simplified and automated!

Netfira Delivers a Reliable and Affordable Solution

Across industries, companies of all sizes are embracing B2B solutions to:

- Improve productivity by transforming the way dealers and distributors communicate
- Integrate and streamline ERP, inventory and accounting systems, and order processing procedures
- Deliver peer-to-peer transactions with security and reliability

Our market leading solution redefines what traditional eCommerce systems have to offer by connecting buyers and sellers in REAL-TIME, securely by providing:

- Exceptional ease of installation, management and use
- Simple inventory lookup with fully integrated and automated transactions for buyers and sellers
- Lower cost of ownership

Netfira delivers benefits to Peachtree users

With Netfira and Sage Peachtree, our focus is to provide back-office system integration that produces results and contributes to the bottom line of your business. Whether it is optimization of an existing system, or implementation of a total system and procedures, Netfira and Sage Peachtree provide a complete and secure solution for your business.

With Netfira and Sage Peachtree, you can:

- Create a web store to sell your products
- Interface with your suppliers and customers regardless of their platforms
- Deploy sophisticated eCommerce capabilities inexpensively

With Netfira, the buyers' and sellers' back-office systems are always in sync. Buyers can automatically connect to authorizing sellers and search inventory at no cost. This streamlines processes and automates integration of sales orders, invoices, and purchase orders into distributors' and dealers' existing systems like Sage Peachtree. When a purchase is made, buyers see purchase orders and sellers see sales orders automatically entered into their back-office system.

About Sage

Sage provides business software support to small and medium-sized businesses. While Sage is commonly found in the small business market, they also have the experience to meet the needs of specific industries and larger organizations. Sage is a global company with 6.1 million customers, over 13,400 employees and more than 25 years of experience working with small and medium-sized businesses.

Connecting Buyers and Sellers in REAL-TIME

Netfira is a breakthrough business-to-business (B2B) supply chain solution that streamlines the buying and selling process. Netfira facilitates REAL-TIME, electronic transactions between trading partners, eliminates manual data entry and integrates with back-office systems to provide powerful, REAL-TIME information about inventory levels and pricing within the supply chain.
