- Warehousing

Netfira + Sage ERP Accpac = A Whole New Inventory Management Solution

Netfira is a breakthrough business-to-business (B2B) supply chain solution that streamlines the buying and selling process. It facilitates REAL-TIME, electronic transactions between trading partners, eliminates manual data entry, integrates with participants' back-office systems and provides powerful, REAL-TIME information for buyers on inventory levels and pricing within the supply chain. It's easy to buy enterprise resource planning (ERP), inventory and accounting software, but it is not easy to implement it with other business software and merchant accounts.

"By adding Netfira, our Sage Accpac customers get real-time inventory visibility, fully automated orders and a whole new level of supply chain management integrated into their existing Accpac environments."

*—Amjad Khan,
President at aimINSIGHT*

Deliver End-to-End Intelligence, Efficiency and Savings

Watch your profitability take off as Netfira partners with aimINSIGHT and increases the collaboration between your co-workers, partners, and customers worldwide using Sage ERP Accpac. Get the tools you need to see your business in a new way, improve productivity and accelerate growth with this customizable, cost-efficient software for finance, operations and customer relationship management (CRM) software. Improve internal and external communication using a single solution that ties your processes together and streamlines your business operations domestically and internationally.

Sage ERP Accpac Extended Solutions is a fully integrated system designed for fast growing distribution and manufacturing companies. It includes both web based and desktop based software. It is multilingual and multi-currency. It is widely used around the world. It is also highly customizable and adaptable.

With the Netfira and aimINSIGHT partnership, our focus is to provide back-office system integration for Sage ERP Accpac users that improves operations, streamlines order processing and contributes to the bottom line of your business. Whether it's custom programming, optimization of an existing system, or implementation of a total system and procedures, we'll provide a complete solution for your business.

Netfira Delivers a Reliable and Affordable Solution

Across industries, companies of all sizes are embracing B2B solutions to:

- Improve productivity by transforming the way dealers and distributors communicate
- Integrate and streamline ERP, inventory and accounting systems, and order processing procedures
- Deliver REAL-TIME transactions securely and reliably

Our market leading solution redefines what traditional eCommerce systems have to offer by connecting buyers and sellers in REAL-TIME, securely by providing:

- Exceptional ease of installation, management and use
- Simple inventory lookup with fully integrated and automated transactions for buyers and sellers
- Lower cost of ownership

With Netfira, the buyers' and sellers' back-office systems are always in sync. Buyers can automatically connect to authorizing sellers and search inventory at no cost. This streamlines processes and automates integration of sales orders, invoices and purchase orders into distributors' and dealers' existing systems like Fishbowl.

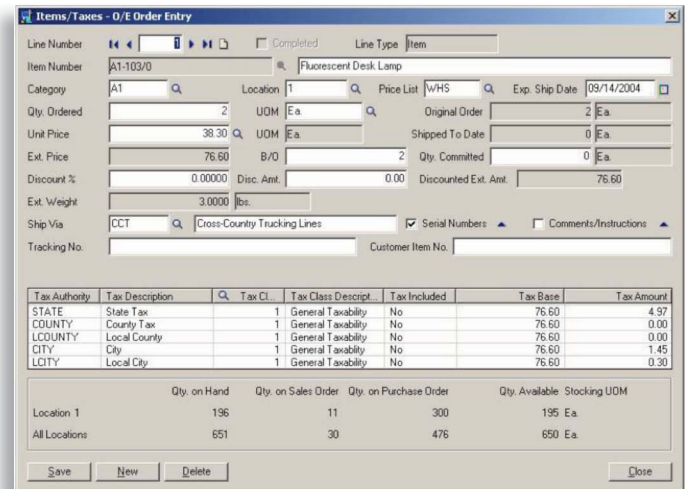

Connecting Buyers and Sellers in Real-Time

Netfira is a breakthrough business-to-business supply chain solution that streamlines the buying and selling process. Netfira facilitates REAL-TIME, electronic transactions between trading partners, eliminates manual data entry and integrates with sellers' back-office systems to provide buyers with powerful, REAL-TIME information about inventory levels and pricing within their supply chain.

SAP, the SAP logo, and the SAP partner logo are trademarks or registered trademarks of SAP AG in Germany and in several other countries all over the world.

When a purchase is made, buyers see purchase orders in their back-office system and sellers can see their sales orders in Sage ERP Accpac.

Sales Order Created in ERP Sage Accpac: 100% Automation.
