

Netfira Buyer Solution

Document Capture

NETFIRA – A B2B Software Solution Connecting Buyers and Sellers in REAL-TIME

- Deliver B2B transactions, directly from your own ERP system, securely and reliably
- Automate order processing: Eliminate phone, fax and email orders
- Improve productivity and reduce operating expenditures

Netfira is a breakthrough business-to-business supply chain solution that streamlines the buying and selling process. Netfira provides powerful, REAL-TIME information for buyers about inventory levels and pricing within their supply chain and facilitates REAL-TIME electronic transactions between trading partners.

Document Capture

Document Capture

The Document Capture Solution allows buyers to transmit orders to sellers using electronic documents or files. These documents can be Purchase Orders (POs), Quote Requests or any other business document created in the buyer's back-office accounting or ERP system.

The Document Capture Solution utilizes the 'Netfira Print Driver'. Documents printed to the 'Netfira Print Driver' are transmitted to the seller automatically, securely and reliably.

Solution Features

- **Place Orders** electronically via the 'Netfira Print Driver'
- **Verify** status of the orders (Sent or Not Sent)
- **Receive** immediate order notification via email from the seller
- **List** all orders placed to the seller
- **View** the raw data file that was sent to the seller
- **Installation and configuration** takes less than one hour
- **Software upgrades** are provided automatically
